

CLAUDIA PACHECO

JUNIOR FULL STACK DEVELOPER

@ claudia.pacheco.dev@gmail.com [linked in . com / in / claudia - pacheco 1](https://www.linkedin.com/in/claudia-pacheco1)

📍 London, United Kingdom

EXPERIENCE

Junior Web Developer

June 2023 - Apr 2026

InvestCloud Inc.

- Engineered **web application features** on top of an internal platform, working with front-end components, configuration and backend integrations to deliver end-to-end functionality.
- Used **metadata / configuration files** to control application behaviour (navigation, permissions, validation rules), reducing code duplication and making the UI easier to maintain and customise per client.
- Designed and implemented **role-based access and navigation**, ensuring users only saw and could access the apps and pages appropriate for their role.
- Partnered with QA and product teams to **stabilise releases**, define acceptance criteria and maintain test environments with frozen builds for UAT and regression testing.
- Contributed to **release and deployment processes**, including preparing deployment notes (versions, environments, URLs, browser coverage) and supporting production rollouts and hotfixes.
- Investigated and resolved **production incidents** related to UI, configuration and environment differences, improving logging and documentation for faster root-cause analysis.

Software Engineering Immersive Flex Part-time Student

Jan 2021 - Jan 2022

General Assembly

- Completed 24 weeks of expert-led Zoom classes covering several languages and frameworks with an emphasis on React, JavaScript, HTML, CSS, Node.js, Express, SQL and NoSQL databases, and Python.
- Participated in daily stand-ups, pair-programming and 4 projects covering both Frontend and Backend technologies.

OTHER EXPERIENCE

FOH & Virtual Hearings

2021 - 2023

The International Arbitration Centre
London, United Kingdom

Fragrance Specialist

2016 - 2019

Selfridges - London, United Kingdom

Cabin Crew

2020

Emirates
Dubai, United Arab Emirates

EDUCATION

Software Engineering Immersive Flex

General Assembly London, United Kingdom

CertHE in Computer Science

University of Hertfordshire London, United Kingdom

ABOUT ME

I'm a Software Engineer with a strong passion for technology, who discovered my interest in coding whilst programming a robot in school. After attending university and a coding bootcamp with General Assembly, giving me experience in both **Frontend and Backend development**, I now work as a Junior Web Developer in the Financial Services industry.
